

Comments/Feedback on DRAFT AFFINITY Falls Prevention & Bone Health: Foundation Education Resource April 2015

Version Circulated –April 2015

Name of Commentator (please state your name here):

Role:

Date feedback provided:.....

The AFFINITY Foundation Education Resource aims to promote excellence in the delivery of falls prevention, management and bone health services for older persons. It will be used by Falls Link Workers (or equivalent) responsible for delivering education and learning sessions to health and social care workers involved in the implementation of falls and fracture prevention initiatives. Learning sessions will be appropriate for workers across all disciplines working in hospital, residential, primary care and/or community settings. The AFFINITY foundation resource was developed in line with the ‘National Strategy for the Prevention of Falls and Fractures in Ireland’s Ageing Population’, best available evidence and practice based, life-long learning. This resource was developed by the Education and Learning Support Team, an interdisciplinary group of nursing and therapy professionals, who were mandated by the AFFINITY National Implementation Team in 2014 to work collaboratively on its development.

AFFINITY (Activating Falls and Fracture Prevention **in** Ireland **T**ogether) is the National Falls Prevention and Bone Health Project to implement the ‘National Strategy for the Prevention of Falls and Fractures in Ireland’s Ageing Population’,
